

Celebrating

70
Years

Crombies of Edinburgh

supplying Christmas foods since 1955

The shop was opened in 1955 by Alexander Crombie (bottom right). After his passing in 1962, Sandy Crombie (top right) took over the business and led it with dedication for many decades.

1960----

1970----

-----1980----

We expanded the original shop in 1984, and since then our deli and cheese counter have become an integral part of our regular offering.

Crombies of Edinburgh has always been dedicated to excellence in food. We continually strive for improvement, and the quality and value of our products have been recognised with numerous awards over the years. Today, Crombies proudly operates within The Broughton Market, remaining in the same location we have called home for 70 years.

In 2022, we began building The Broughton Market on Crombies' strong foundation, with our mission unchanged — to provide you with the finest food products and an ever-expanding selection of exceptional produce.

A heartfelt thank you to all our loyal customers, old and new, for your continued support as we embark on this exciting new chapter together.

Meet the Showstopper

Godwick Norfolk Turkey

Godwick Free Range Christmas Turkeys (Both Black & Bronze Turkeys available)

Nestled in the heart of the Norfolk countryside, our family-run farm has been supplying great tasting, succulent Christmas turkey for over 50 years.

Rob and Charlotte are passionate about their craft and dedicate themselves to giving every bird in their small flock the care and attention it deserves. Only ever selecting traditional breeds, our slow-growing birds are given the time, space and nutrition to develop naturally.

All turkeys are dry-plucked by hand and are hung for 14 days in the traditional way to guarantee a rich-tasting, succulent meat. We guarantee a Godwick Norfolk turkey will not disappoint!

Godwick Norfolk Turkey

Why Choose a Godwick Free Range Turkey?

Godwick Free Range Turkeys offer a truly premium choice for your Christmas table. Here are the key reasons why:

- **Free Range Lifestyle:** Godwick turkeys enjoy 24-hour access to pastures, thanks to secure fencing. This allows them to roam freely, exhibiting natural behaviours, which contributes to their overall health and well-being.
- **Grown to Full Maturity:** These turkeys are raised to a minimum of **26 weeks**, ensuring they develop a natural fat covering. This results in **succulent, juicy meat** that's rich in flavour.
- **Hand-Plucked for Quality:** Each turkey is **dry-plucked by hand** for superior texture. Additionally, **sinews are removed** for a smoother carving experience.

Choosing a Godwick turkey means choosing a bird raised with care and attention to detail, guaranteeing a delicious and tender centrepiece for your holiday feast.

Black vs Bronze Turkey

What's the difference between a Bronze and Norfolk Black free range turkey?

Norfolk Black turkey:

Is one of the oldest and most iconic turkey breeds, known for its striking black plumage and regal appearance. First brought to Europe from the Americas and Mexico, it quickly became a sought-after bird. While it grows a bit slower than modern breeds, its incredible flavour makes it well worth the wait. With a slightly **gamey taste**, the Norfolk Black is delicious both hot and cold. If you're a fan of cold turkey paired with chutneys on Boxing Day, this breed is the perfect choice, thanks to **its rich, natural flavour**—a truly unbeatable, authentic product.

The Bronze turkey:

Bred from the Norfolk Black, offers a more **mellow, succulent taste** that truly excites the palate. Its broad breast provides plenty of tender, white meat. At Godwick, they ensure their Bronze turkeys are allowed to mature naturally, developing a **thin layer of fat** that, when cooked, keeps the meat moist and flavourful. As long as it's cooked properly, they guarantee you'll enjoy juicy, delicious meat that's full of taste and quality—perfect for your festive feast!
